NOTICE OF ALLOWANCE

Allowable Subject Matter

1. It is in the opinion of the examiner that the art of record neither anticipates nor renders obvious "a first mechanism for moving said spindle head substantially parallel to the axis," in combination with the rest of the claimed limitations set forth in the independent claim.

Further searching by the examiner yielded additional prior art as follows:

Newman (US Patent 3,421,351) discloses a method of forming bar screws having a spindle (30) driven by motor (38) and jaws (grippers 44 and 45) that are then rotated by the spindle. This reference lacks independently driven mechanisms for the spindle and jaws.

Mizutani (US Patent 4,367,641) discloses an apparatus for bending and twisting elongated pieces having a pair of jaws (bending rolls 61) which hold the workpiece (molding M), but does not have a spindle head driven by an independent mechanism that moves parallel to the axis.

However the above prior art fails to disclose a reasonable combination of "a first mechanism for moving said spindle head substantially parallel to the axis." Therefore, it is concluded by the examiner that claims 1-5 and 7-20 of the present invention are allowable.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Teresa M. Bonk whose telephone number is (571) 272-1901. The examiner can normally be reached on M-F 7:30AM - 5PM with alternating Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Derris Banks can be reached on (571) 272-4419. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
